ECA | Medium Hardware Assurance | Trusted Agent Identity-Proofing Required Certificate

Product Summary

ECA | Medium Hardware Assurance | Trusted Agent Identity-Proofing Required certificates are issued under the U.S. Department of Defense (DoD) External Certificate Authority program and are used to conduct business with the DoD and other government entities. This certificate provides the highest level of security available and as such requires a high level of identity authentication.

This certificate is stored on a hardware device (Smart card or USB token) and can be used with multiple PCs or laptops as long as the ActivClient utility application has been installed.

The ECA | Medium Hardware Assurance | Trusted Agent Identity-Proofing Required certificate is used to conduct business through DoD ECA agency applications; however, not all agencies require this high-level credential.

Select BUY NOW to use our Certificate Selection Wizard, where we will assist you in choosing the certificate type that has the appropriate assurance level required by the agency with which you transact business.

Identity Authentication Method:	Your identity must be verified in-person with an IdenTrust Registrar or a pre-established Trusted Agent within your organization
Identity Proofing Requirements:	Proof of identity, citizenship and affiliation with the Sponsoring Organization
Forms Packet Required:	Yes – You are required to submit a complete forms packet with your application
Trust Model:	This certificate is trusted by the U.S. Government
