

IGC Certificates

Identity Verification Requirements

Purchasing an IGC Certificate is Easy

When purchasing an IGC digital certificate, individuals must have their identity verified in accordance with the IGC Certificate Policy.

Documents Used in the Identity Verification Process Must be Valid

Valid identification documents are those which are not expired. Depending on the type of certificate you purchase, valid documents are presented to a Notary Public, an IdenTrust Registrar, or an Authorized Trusted Agent performing the in-person identity validation (I&A).

IGC | Basic Assurance | Individual Identity Certificates, for U.S. certificates only

You will be required to disclose personal information about yourself for the purpose of I&A, which will be completed electronically. You will be asked to provide:

- Your Social Security Number
- Your date of birth
- One of the following:
 - State-issued driver's license, or ID card
 - U.S. passport number
 - Alien registration card number

IGC | Medium Assurance Certificates

You will be required to provide the following to a Notary Public, an IdenTrust Registrar, or an Authorized Trusted Agent:

- One (1) valid federal-issued verifiable form of ID with a photo, or
- Two (2) valid state or local government-issued verifiable forms of ID, at least one of which must contain a photo

The "Part 2: In-person Identification Form" must have all ID information filled in completely.

Acceptable Valid Federal Government-issued ID Documents

- | | |
|---|--|
| • U.S. passport | • Certificate of citizenship issued by USCIS |
| • U.S. certificate of naturalization with photo | • Passport issued by country of citizenship |
