DoD ECA Digital Certificates for Foreign Countries

There are two types of DoD ECA digital certificates offered for foreign countries:

- **DoD ECA Medium Assurance** certificates are browser-based software certificates that are loaded onto a user's hard drive; therefore, the certificate is not portable from computer to computer. This digital certificate meets the minimum security requirement for DoD ECA Medium Assurance level certificates.

- **DoD ECA Medium Token Assurance** certificates are hardware-based certificates that are stored on a FIPS 140-2 Level 2 or higher cryptographic device (either a smart card or a USB token). This is a portable certificate and can be used on any computer where the utilities drivers have been installed. A DoD ECA Medium Token Assurance certificate is a higher assurance level certificate than a software-based certificate.

If you are unsure which certificate type will meet the requirements of the DoD Relying Party and/or your application, please contact IdenTrust at +1 (866) 299-3335 or via email at ECAsales@identrust.com for assistance.

In-Person Identification Verification Information

U.S. citizens may apply for a DoD ECA digital certificate while in any country with a United States Consulate. Upon completion of the online application, identity forms must be signed in the presence of a United States Consular Officer who is authorized to provide notarial services.

Citizens of Australia, Canada, New Zealand or the United Kingdom, while in any of these four countries, may apply for a DoD ECA digital certificate by completing the online application and retrieving the identity forms. Identity forms must be signed in the presence of a United States Consular Officer who is authorized to provide notarial services.

Citizens of other countries must have identity forms signed in the presence of an Authorized Individual, approved by the Department of Defense (DoD). If you do not already have a DoD Authorized Individual, one will need to be established before you apply. Please contact the IdenTrust helpdesk for instructions in setting up an Authorized Individual by calling **+1 (801) 384-3474** or by email at **helpdesk@identrust.com**.
