

DoD ECA Medium Hardware Assurance Certificate

Product Summary

DoD ECA Medium Hardware Assurance certificates are issued under the Department of Defense External Certificate Authority program and are used to conduct business with the DoD and other Federal Government entities. This certificate provides the highest level of security available and as such requires a high level of identity authentication.

This certificate is stored on a hardware device (Smart card or USB token) and can be used with multiple PCs or laptop as long as the device utility application is installed.

Affiliated Programs

The DoD ECA Medium Hardware Assurance certificate is used to conduct business through DoD ECA agency applications and is accepted by all agencies; however, not all agencies require this high-level credential. Select **BUY NOW** to use our Certificate Selection Wizard, where we will assist you in choosing the certificate type that has the appropriate assurance level required by the agency with which you wish to transact business.

Identity Authentication Method:	Your identity must be verified In-person with an IdenTrust Registrar or pre-established Trusted Agent within your company
