These certificates are for individuals that need to purchase an IGC Certificate and are required to be affiliated with a sponsoring organization.

Using the IdenTrust website, select "BUY NOW" to use our Certificate Selection Wizard, where we will assist you in selecting the appropriate certificate type required for your activity.

Product Summary

IGC Basic Assurance Affiliated Certificates for Software or Hardware are issued under the IdenTrust Global Common Certification Authority Policy program and are cross-certified under the U.S Federal PKI Common Policy Framework. The IGC Federal Bridge Certified Certificates are accepted by government agencies and used by individuals who are affiliated with a sponsoring organization to securely conduct business in a digital world. The Software Certificate is safely stored in the browser certificate store on your local PC or laptop and can only be used on a single device. The Hardware Certificate is bound and stored on a FIP 140-2 compliant hardware device (USB token, Smart card, or other approved hardware device). The Hardware Certificate can be used with multiple PCs or laptops if they have the ActivID® software installed.
