

IGC Medium Assurance Unaffiliated Certificate

The IGC Medium Assurance Unaffiliated Certificates for Software or Hardware can be issued to multiple types of professionals.

Professionals who submit digitally signed and sealed documents to government agencies for processing and approval.

eNotaries that need to have a higher level of identity vetting to perform their functions.

Healthcare professionals for prescribing under the Electronic Prescriptions for Controlled Substances (EPCS) program.

Additionally, because these certificates are publicly trusted, (unaffiliated programs are not always applicable) anyone can purchase or trust IGC certificates, digital signatures and emails secured by an IGC Medium Assurance Unaffiliated with Hardware certificate.

Select **BUY NOW** to use our Certificate Selection Wizard, where we will assist you in choosing the certificate type that has the appropriate assurance level required for you to transact business.

Product Summary

IGC Medium Assurance Unaffiliated Certificates for Software or Hardware are issued under the IdenTrust Global Common Certification Authority program and are cross-certified under the U.S. Federal PKI Common Policy Framework. IGC Federal Bridge Certified certificates are accepted by government agencies and are used by individuals who wish to conduct business in a digital world. The Software Certificate is safely stored in the browser certificate store on your local PC or laptop and can only be used on a single device. The Hardware Certificate is bound and stored on a FIP 140-2 compliant hardware device (USB token, Smart card, or other approved hardware device). The Hardware Certificate can be used with multiple PCs or laptops if they have the ActivID® software installed.
